

# Armand GAZZANO

## Full Stack Developer

### PROFILE

Full Stack Developer with nearly five years of experience building critical web applications in demanding environments, primarily in the defense and aerospace sectors (Naval Group, Airbus, DGA). Specialized in Java Spring Boot and Angular, with hands-on experience in real-time 3D visualization (Three.js, WebGL). Comfortable with complex architectures, microservices, and Agile methodologies. Fluent in French (native) and English (Cambridge First Certificate). Currently seeking an international opportunity.

### EXPERIENCE

05/2022 to  
01/2026

#### Full stack developer - SOPRA STERIA GROUP

Developed web applications for major industrial and defense clients (Naval Group, Airbus, DGA).

- Developed a real-time tactical simulation platform with 2D/3D visualization (Three.js, WebGL) for the French Defense Agency
- Legacy C# thick client migration toward modern web architectures (Java Spring Boot, Angular)
